

NEW SERVICES OFFERED at NORTHWOOD OB/GYN!

You now may have the option of a Telemedicine Consultation with our Doctors.

If you have a “new” problem, choose not to come into the office, and it’s an issue that can be addressed by talking, you may be able to have a “telephone visit” with one of our doctors.

Certain problems or conditions cannot be treated without a physical visit. Telemedicine visits may be subject to copay and deductible costs for you. Some insurance companies may not pay for this service.

You always have the option of a physical visit, but we know many of you will appreciate sorting out a clinical problem on the phone.
